

Khanna Paper Inc, USA is a procurement arm of Khanna Paper Mills, India. It purchases Recycled Fiber from United States of America. Khanna Paper Mills, India annually produces 3,30,000 MT of Paper and Board annually utilizing **400,000 MT of Recycled Fiber**.

We target to annually procure 2,50,000 MT of Waste Paper and 40000 MT of Pulp. We have established close relationships with suppliers, mills and has built a collaborative network of trading partners around the world.

Khanna Paper Inc, USA prime focus:

- Is trading Waste Paper and pulp from North America to India.
- Khanna Paper Mills principles for fiber are simple:
- Create value by focusing on long-term relationships rather than market timing.
- Establish long-term contracts for fixed volume linked to a price index.
- Collaborate with paper mills to reduce structural costs, including: – Freight – Inventory – Administration – Financial and fixed costs.
